

流体と気体の数学解析

Mathematical Analysis in Fluid and Gas Dynamics

RIMS 共同研究（公開型）報告集

2019年7月3日～7月5日

研究代表者 上田 好寛 (Yoshihiro Ueda)

目次

1. Fukuda-Okasaka-Fujimoto Model System of Mixed Ionized Gas Dynamics .....  
浅倉 史興 (Fumioki Asakura) 大阪電気通信大学 (Osaka Elect.-Communi. U.)
2. Numerical analysis for fractional Burgers equations in supercritical cases .....  
大繩 將史 (Masashi Ohnawa) 東京海洋大学 (Tokyo U. Marine Sci. Tech.)
3. A SUMMARY ON THE EXISTENCE THEOREM OF DETACHED SHOCK  
SOLUTIONS OF POTENTIAL FLOW AND A DISCUSSION ABOUT  
DETACHED SHOCK SOLUTIONS OF FULL EULER SYSTEM .....  
Myoungjean Bae POSTECH / Korea Institute for Advanced Study  
Wei Xiang City U. of Hong Kong
4. Rapid energy decay of the Navier-Stokes flow by the external force .....  
岡部 考宏 (Takahiro Okabe) 大阪大学 (Osaka U.)
5. Numerical Analysis on the Long-Time Behavior of Moving Body  
in a Rarefied Gas .....  
辻 徹郎 (Tetsuro Tsuji) 京都大学 (Kyoto U.)
6. Large Time Behavior of Solutions to the Nonlinear Hyperbolic  
Relaxation System with Slowly Decaying Data .....  
福田 一貴 (Ikki Fukuda) 北海道大学 (Hokkaido U.)
7. A kinetic model for a polyatomic gas with temperature-dependent  
specific heats and its application .....  
青木 一生 (Kazuo Aoki) National Cheng Kung U.  
小菅 真吾 (Shingo Kosuge) 京都大学 (Kyoto U.)  
Hung-Wen Kuo National Cheng Kung U.
8. Stability and instability of traveling wave solutions to  
scalar balance laws .....  
Vincent Duchêne U. Rennes

9.  $L^r$ -Helmholtz-Weyl decomposition in 3D exterior domains .....
- 小園 英雄 (Hideo Kozono) 早稲田大学 (Waseda U.) / 東北大学 (Tohoku U.)
10. Vortex dynamics on the surface of a torus: a review .....
- 坂上 貴之 (Takashi Sakajo) 京都大学 (Kyoto U.)
11. Global existence of solutions of the compressible viscoelastic fluid  
around a parallel flow .....
- 石垣 祐輔 (Yusuke Ishigaki) 東京工業大学 (Tokyo Inst. Tech.)
12. On the asymptotic stability of rarefaction waves for a hyperbolic  
system of balance laws .....
- 中村 謙太 (Kenta Nakamura) 東北大学 (Tohoku U.)
13. On GENERIC formalisms for complex fluids .....
- 鈴木 幸人 (Yukihito Suzuki) 早稲田大学 (Waseda U.)
14. Local energy weak solution for the Navier-Stokes equations and applications .....
- 三浦 英之 (Hideyuki Miura) 東京工業大学 (Tokyo Inst. Tech.)
