Section 3

Number Theory and Arithmetic Algebraic Geometry

In case of several authors, Invited Speakers are marked with a *.

Vladimir G. Berkovich: p-Adic Analytic Spaces ..... II 141

Pierre Colmez: Représentations p-Adiques d'un Corps Local ..... II 153

W. Duke: Bounds for Arithmetic Multiplicities ..... II 163

François Gramain: Quelques Résultats d'Indépendance Algébrique II 173

Loïc Merel: Points Rationnels et Séries de Dirichlet ..... II 183

Shinichi Mochizuki: The Intrinsic Hodge Theory of p-Adic Hyperbolic Curves ..... II 187

Hans Peter Schlickewei: The Subspace Theorem and Applications II 197

Takeshi Tsuji: p-Adic Hodge Theory in the Semi-Stable Reduction Case ..... II 207

Shou-Wu Zhang: Small Points and Arakelov Theory ..... II 217
