

To Proposers of the Joint Research Activity

How to Write the Intention Survey

Proposals for Joint Research Activities will be screened in the RIMS Advisory Board. Please submit the “Intention Survey on the Joint Research Activity” together with the “Grant Proposal for RIMS Joint Research Activity”, which will be used as a reference material for screening. If you submit more than one proposals, please submit the Intention Surveys for each proposal respectively.

1. Recommendation of explainer

Each proposal for Joint Research Activity shall be explained by a member of the Technical Committee in the committees. Therefore, please choose and recommend one (or more) person(s) who you think will be appropriate as an explainer for your proposal among the committee members (for the list of committee members, see URL: http://www.kurims.kyoto-u.ac.jp/~kyodo/meibo/Technical_Committee.pdf), and write his/her name(s) in No.4 in the Intention Survey. Please note that your proposal may be explained by a committee member other than the one(s) you recommended.

2. Conducting the Joint Research Activity without any travel expenses provided

If there are too many proposals for Joint Research Activities, compared to the size of our total budget, some of them shall not be approved or the budget for each proposal shall be reduced. In addition, the following choice could be considered and applied. Therefore, please let us know the possibility of conducting your research in the following case (Please answer in No. 5 in the Intention Survey).

Though RIMS does not provide any travel expenses, if the Joint Research Activity could be conducted with other financial resources and the principal researcher agrees with it, the proposal could be approved without any travel expenses provided.
