Analytic Geometry of the Bergman Kernel and Related Topics
Analytic Geometry of the Bergman Kernel and Related Topics

撃長氏のテル Faces and Similar Topics

RIMS 研究集会報告集

2005年1月2日～1月16日

研究代表者：大沢 健夫 (Takeo Ohsawa)

目次

1. POSITIVITY PROPERTIES OF DIRECT IMAGE BUNDLES ........................................ 1
   Chalmers Univ. of Tech. / The Univ. of Göteborg Bo Berndtsson

2. Geometry of Banach Spaces Predual to $H^\infty$ and Corona Problem ........................... 13
   Univ. of Calgary Alexander Brudnyi

3. Holomorphic motion and invariant metrics ............................................................... 27
   Tongji Univ. Bo-Yong Chen
   Fudan Univ. Jinhao Zhang

4. WEIGHTED BERGMAN KERNELS AND BALANCED METRICS ........................................ 40
   Silesian Univ. at Opava / Math.Inst., Prague Miroslav Englis

5. ON THE GEOMETRY OF MODULI SPACE OF POLARIZED CALABI-YAU MANIFOLDS ...................... 55
   Rutgers Univ. / IHES Michael Douglas
   UC Irvine Zhiqin Lu

6. Spherical Fourier transforms of the Berezin kernels on symmetric Siegel domains .............. 69
   横浜市立大学・国際総合科学 伊師 英之 (Hideyuki Ishi)
   九大・数理学 野村 隆昭 (Takaaki Nomura)

7. The Logarithmic Singularities of the Bergman Kernels for model domains ...................... 79
   Fudan Univ. Hanjin Lee

8. THE ASYMMETRIC EXPANSION OF BERGMAN KERNELS ON SYMPLECTIC MANIFOLDS .................. 85
   Ecole Polytechnique Xiaonan Ma
   Johann Wolfgang Goethe-Univ. George Marinescu

9. Perturbed balanced metrics and Tian-Zelditch-Catlin's theorem .................................. 96
   阪大・理学 潮渕 俊樹 (Toshiki Mabuchi)

10. Variation of Bergman metrics in different views .................................................. 101
    京都工織大・工芸 米谷 文男 (Fumio Maitani)
    Pohang Univ. of Sci. and Tech. 山口 博史 (Hiroshi Yamaguchi)

11. AMPLITUDE ET POSITIVITÉ DES FIBRÉS VECTORIELS HOLOMORPHES .......................... 112
    Inst. de Math. de Jussieu Christophe Mourougane
12. Projective embeddings and Lagrangian fibrations of Kummer varieties 121
    名大・多元数理科学 野原 雄一(Yuichi Nohara)

13. Szegö projections and new invariants for CR and contact manifolds 129
    東大・数理科学 Raphael Ponge

14. On Bergman kernels and multiplier ideal sheaves 142
    Univ. of Warwick Dan Popovici

15. Nakano semipositivity of the direct images of pluricanonical systems 157
    上智大・理工 辻 元(Hajime Tsuji)

16. 解析的トーションと三次元 CALABI-YAU多様体の不変量 167
    東大・数理科学 吉川 謙一(Ken-ichi Yoshikawa)

17. A mean value inequality for plurisubharmonic functions 175
    on a compact Kähler manifold

    Peking Univ. Xiaohua Zhu
