COMMENTS ON "THE PROFINITE GROTHENDIECK CONJECTURE FOR CLOSED HYPERBOLIC CURVES OVER NUMBER FIELDS"

SHINICHI MOCHIZUKI

December 2012

(1.) In the discussion following the display "$\lambda : L^r \to D'_Y$" in §5, the equation "$\lambda(\dots) = K_Y$" that appears at the end of the fourth to last sentence of this discussion should read "$\lambda(L^r) = K_Y$".
