	Page
13. Teodor BANICA and Benoît COLLINS, Integration over compact quantum groups.....	277
14. Yousuke KAMIYA and Katsumi SHIMOMURA, Picard groups of some local categories.....	303
15. Catherine DONATI-MARTIN and Marc YOR, Further examples of explicit Krein representations of certain subordinators.....	315
16. Nicolas LERNER and Yoshinori MORIMOTO, On the Fefferman-Phong inequality and a Wiener-type algebra of pseudodifferential operators.....	329
17. Juan B. SEOANE-SEPÚLVEDA, Explicit constructions of dense common hypercyclic subspaces.....	373
18. Mrinal Kanti ROYCHOWDHURY, Irrational rotation of the circle and the binary odometer are finitarily orbit equivalent.....	385
19. Saeid AZAM and Valiollah SHAHSANAEI, Simply laced extended affine Weyl groups (A finite presentation).....	403
20. Takashi TAKIGUCHI, Structure of quasi-analytic ultradistributions.....	425
21. Shinichi TAJIMA, A new look at the local solvability condition of inhomogeneous ordinary differential equations.....	443
22. Haruo MINAMI, Remarks on framed bordism classes of classical Lie groups.....	461
23. Yoshiyasu YASUTOMI, Modified elastic wave equations on Riemannian and Kähler manifolds.....	471
24. S. T. KURODA, Estimates of Kato-Temple type for n -dimensional spectral measures.....	505
25. Masatoshi IIDA, Errata : Spherical functions of the principal series representation of $Sp(2, \mathbb{R})$ as hypergeometric functions of C_2 type (Publ. RIMS, Kyoto Univ. 32 (1996), 689-727).....	521
