Cambridge Core eBooks : Perspectives in Logic Series. 16titles

No.	title	eISBN
1	Degrees of Unsolvability: Local and Global Theory	9781316717059
2	Recursion-Theoretic Hierarchies	9781316717110
3	Metamathematics of First-Order Arithmetic	9781316717271
4	Computability in Analysis and Physics	9781316717325
5	Subsystems of Second Order Arithmetic	9780511581007
6	Proper and Improper Forcing. 2nd ed.	9781316717233
7	General Recursion Theory: An Axiomatic Approach	9781316717073
8	Model-Theoretic Logics	9781316717158
9	Higher Recursion Theory	9781316717301
10	Admissible Sets and Structures	9781316717196
11	Lambda Calculus with Types	9781139032636
12	Constructibility	9781316717219
13	Essential Stability Theory	9781316717257
14	Fundamentals of Stability Theory	9781316717035
15	Pure Inductive Logic	9781107326194
16	Proofs and Computations	9781139031905
