

No.	title	ISBN
1	Inside Finite Elements	9783110373202
2	Numerical Methods for Eigenvalue Problems	9783110250374
3	Pseudodifferential and Singular Integral Operators	9783110250312
4	Regularization Methods in Banach Spaces	9783110255720
5	Regularization Theory for Ill-posed Problems	9783110286496
6	Weak Convergence of Stochastic Processes	9783110476316
7	Lectures on the Topology of 3-Manifolds	9783110250367
8	Szego's Theorem and Its Descendants	9781400837052
9	Ergodic Theory and Dynamical Systems	9783110298208
10	The Geometry and Topology of Coxeter Groups. (LMS-32)	9781400845941
11	A Posteriori Estimates for Partial Differential Equations	9783110203042
12	Adaptive Numerical Solution of PDEs	9783110283112
13	Algebraic Curves and Finite Fields	9783110317916
14	Elliptic Diophantine Equations	9783110281149
15	Nonlinear Second Order Elliptic Equations Involving Measures	9783110305319
16	Number Theory, Analysis, and Combinatorics	9783110282429
17	Solution Sets for Differential Equations and Inclusions	9783110293562
18	Structure Theorems of Unit Groups	9783110411508
19	Symmetric Markov Processes, Time Change, and Boundary Theory (LMS-35)	9781400840564
20	The Best Writing on Mathematics 2013	9781400847990

No.	title	ISBN
21	Topological Approximation Methods for Evolutionary Problems of Nonlinear Hydrodynamics	9783110208283
22	Analytical and Numerical Aspects of Partial Differential Equations	9783110212105
23	Brownian Motion	9783110278989
24	Brownian Motion. 2nd ed.	9783110307306
25	Complexity and Evolution of Dissipative Systems	9783110268287
26	Der Briefwechsel Richard Dedekind – Heinrich Weber	9783110368048
27	Gamma	9781400832538
28	Learning and Teaching Mathematics using Simulations	9783110250077
29	Linear and Semilinear Partial Differential Equations	9783110269055
30	Mathematics and Life Sciences	9783110288537
31	Nonlinear Programming	9783110315288
32	Optimal Control of ODEs and DAEs	9783110249996
33	Philosophie der Mathematik und Naturwissenschaft	9783486849905
34	Probability Theory	9783110466195
35	Stochastic Finance	9783110463453
36	Zahlentheorie und Zahlenspiele	9783486720310
