

# MATHEMATICA PANNONICA

18/2 (2007)

## CONTENTS

KOMLÓSI, S., SACHS, H. and TIRONI, G.: Salutation	155
HEATHERLY, H. E., KOSLER, K. A. and TUCCI, R. P.: The semigroup of right ideals of a right weakly regular ring	157
JABŁOŃSKI, W. and REICH, L.: On the standard form of the solution of the translation equation in rings of formal power series	169
KÁTAI, I. and <span style="border: 1px solid black; padding: 2px;">SUBBARAO, M. V.</span> : Distribution of $q$ -additive functions on some subsets of integers	189
SCHWAIGER, J.: Comments on a short proof of an explicit formula for Bernoulli numbers	201
MERLONE, U., SZIDAROVSKY, F. and SZILAGYI, M. N.: Finite neighborhood games with binary choices	205
MADRITSCH, M. G.: A note on normal numbers in matrix number systems	219
FAROGHI, D., KOPETZKY, G. und SACHS, H.: Schiefe Axonometrie mit dem Computer	229
GIROTTO, B. and HOLZER, S.: A characterization of the barycentre of masses with convex compact support	247
KOLAR-ŠUPER, R., KOLAR-BEGOVIĆ, Z. and VOLENEC, V.: The first Lemoine circle of the triangle in an isotropic plane	253
SURER, P.: Characterisation results for shift radix systems	265
MÉSZÁROS, F.: Klassifikationstheorie der verallgemeinerten Zykliken 4. Ordnung in pseudoisotropen Raum	299
Mathematica Pannonica Vol. 18 (2007). Contents	325
