

# MATHEMATICA PANNONICA

20/1 (2009)

## CONTENTS

CORRÁDI, K., SZABÓ, S. and HERMANN, P.: A character free proof for Rédei's theorem	3
CHIARELLA, C. and SZIDAROVSKY, F.: Existence and uniqueness in Cournot models with cost externalities	17
DARÓCZY, Z. and DASCÁL, J.: On the general solution of a family of functional equations with two parameters and its application	27
PRAŽMOWSKA, M., PRAŽMOWSKI, K. and ŽYNEL, M.: Affine polar spaces, their Grassmannians, and adjacencies	37
DANCHEV, P. V.: On $\omega$ -elongations by $p^{\omega+n}$ -projective $p$ -groups	61
SZÁSZ, R.: An improvement of a criterion for starlikeness	69
KOLAR-BEGOVIĆ, Z., KOLAR-ŠUPER, R. and VOLENEC, V.: The second Lemoine circle of the triangle in an isotropic plane	79
KÁTAI, I.: Some theorems on the prime divisors of integers	87
SZÁZ, Á.: Relationships between the intersection convolution and other important operations on relations	99
PETERSON, G. L.: Some problems in the theory of nearing modules	109
SANDS, A. D.: A note on distorted cyclic subsets	123
MÉSZÁROS, F.: A functional equation related to characterization problems	129
CHAJDA, I. and LÄNGER, H.: Horizontal sums of bounded lattices	139
