

MATHEMATICA PANNONICA

22/1 (2011)

CONTENTS

SZIDAROVSKY, F. and MATSUMOTO, A.: Some notes on the asymptotical stability of dynamic economic systems	3
BANDYOPADHYAY, M.: On generalized ϕ -recurrent Sasakian manifolds	19
BRUECKLER, F. M. and MATIĆ, I.: The power and the limits of the abacus	25
RADIĆ, M.: Certain relations obtained starting with three positive real numbers and their use in investigation of bicentric polygons	49
WEHRFRITZ, B. A. F.: Weak polynomial automorphisms of soluble groups	73
DANCHEV, P.: Primary Abelian n - Σ -groups revisited	85
SRINIVASA RAO, R., KRISHNAVENI, CH. and SIVA PRASAD, K.: Special classes of right near-ring right modules	95
LEE, K. S. E.: On regularity of matrix near-rings	113
SLIEPČEVIĆ, A. and JURKIN, E.: Butterfly curve theorems in pseudo-Euclidean plane	119
PYRIH, P.: Killing an end point with an open mapping	127
FARLEY, J. D.: Solution to problems of Schmidt and Quackenbush from 1974 and 1985: tensor products of semilattices	135
