The submission of the Intension Survey is optional. If you are submitting it, please include it when you send in the necessary forms for application.

How to Write the Intention Survey

* For " Promotion of Women's Participation "

Each proposal for a Joint Research Activity will be explained in the screening committees by a member of the Advisory Board. Therefore, please choose and recommend one (or more) person(s) who you think would be appropriate as an explainer for your proposal from amongst the Advisory Board members for the list of the Advisory Board members, see

www.kurims.kyoto-u.ac.jp/kyoten/en/files/meibo/Advisory_Board.pdf

* To avoid conflicts of interest, proposers and principal researchers should not be recommended as explainers.

* Please note that your proposal may be explained by a committee member other than the one(s) you recommend.

* If not adopted as a project for "Promotion of Women's Participation" by the Advisory Board, the Technical Committee will still review those proposals with other regular proposals.

Each proposal for a Joint Research Activity will be explained in the screening committees by a member of the Technical Committee. Therefore, please choose and recommend one (or more) person(s) who you think would be appropriate as an explainer for your proposal from amongst the Technical Committee members for the list of the Technical Committee members, see
