Erratum to "Construction and manipulation of Seifert surfaces in knot theory (a note in 2023)"

Mikami Hirasawa

Nagoya Institute of Technology

This is an erratum to the note [1]. Fig. 1(3) was wrong and should be replaced with the knot diagram $12n526$ in KnotInfo [2]. The following is the correct version of Fig. 1.

Figure 1: Make a 17 crossing diagram into a symmetric diagram with 12 crossings

The text itself is not affected. In Fig. 14, we showed a scheme to deform the knot diagram in Fig. 1(1) into that in Fig. 1(2), which is detected to be the knot $12n526$.
