

**RIMS Joint Research Workshop: On the verification and further
development of inter-universal Teichmüller theory
(in Japanese)**

Organizers: Shinichi Mochizuki (RIMS, Kyoto University) (Chair)
Yuichiro Taguchi (Kyushu University)

Dates: March 9 ~ 20, 2015

Place: RIMS, Kyoto University, Room 420 (March 9 ~ 13),
Room 110 (March 16 ~ 20)

March 9 (Monday)

09:30 ~ 10:50 Yuichiro Hoshi (RIMS, Kyoto University)
“Mono-anabelian reconstruction of number fields” (in Japanese)

11:00 ~ 12:30 Go Yamashita (RIMS, Kyoto University)
“Inter-universal Teichmüller theory and its Diophantine consequences”
(in Japanese)

14:00 ~ 18:00 Go Yamashita (RIMS, Kyoto University)
“Inter-universal Teichmüller theory and its Diophantine consequences”
(in Japanese)

March 10 (Tuesday) ~ 13 (Friday),
16 (Monday) ~ 20 (Friday)

09:30 ~ 12:30 Go Yamashita (RIMS, Kyoto University)
“Inter-universal Teichmüller theory and its Diophantine consequences”
(in Japanese)

14:00 ~ 18:00 Go Yamashita (RIMS, Kyoto University)
“Inter-universal Teichmüller theory and its Diophantine consequences”
(in Japanese)

Although the lectures will be given in Japanese, some effort will be made to prepare slides/write on the blackboard in English.

Note: It is likely that the lectures of the above RIMS Joint Research Workshop will be temporarily suspended during the (one-hour) lecture of Professor Minhyong Kim (Oxford University), scheduled for March 9 (Monday) or 10 (Tuesday).
