

COMMENTS ON “A PANORAMIC OVERVIEW OF
INTER-UNIVERSAL TEICHMÜLLER THEORY”

SHINICHI MOCHIZUKI

November 2015

(1.) In the discussion towards the end of §3, the word “rigidity” is *misspelled* (i.e., “ridigity”: 3 instances).

(2.) In the final sentence of §1, the phrase “content of the so-called **Szpiro Conjecture**” should be replaced by the phrase “content of a certain **strong version** of the so-called **Szpiro Conjecture**”. The term “Szpiro Conjecture” as it appears in the Abstract and Corollary 4.2 should also be understood as referring to this *strong version*.

(3.) Throughout the manuscript, the phrases “topological monoid(s)” and “topological module” should be replaced, respectively, by the phrases “ind-topological monoid(s)” and “ind-topological module”.
