

COMMENTS ON “TOPICS IN
ABSOLUTE ANABELIAN GEOMETRY III:
GLOBAL RECONSTRUCTION ALGORITHMS”

SHINICHI MOCHIZUKI

June 2019

- (1.) In Remark 5.10.2, (iv), “On the other,” should read “On the other hand,”.
- (2.) In Theorem 1.11, (b), the text “**totally ramified** at precisely one closed point but unramified elsewhere” should read “**totally ramified** at some closed point”.
- (3.) In the final sentences of Proposition 5.8, (iii), (vi), the phrase “despite the fact one does not” should read “despite the fact that one does not”.
- (4.) In Remark 3.7.5, (ii), (2), “*multiplication*” should read “*multiplication*”.
- (5.) In the statement of Proposition 3.2, (iv), the phrase “if $\mathbb{T} = \mathbb{T}\mathbb{M}$, or” should read as follows:

“if $\mathbb{T} = \mathbb{T}\mathbb{M}$, and $(\Pi \curvearrowright M_{\mathbb{T}})$, $(\Pi^* \curvearrowright M_{\mathbb{T}}^*)$ are of **hyperbolic orbicurve type**, or”

In the proof of Proposition 3.2, (iv), the phrase “[cf. also the first displayed isomorphism of Corollary 1.10, (b)]” should read as follows:

“[cf. also the first displayed isomorphism of Corollary 1.10, (b); [Mzk20], Theorem 2.6, (v)]”

In the statement of Proposition 3.3, (ii), the phrase “if $\mathbb{T} = \mathbb{T}\mathbb{C}\mathbb{G}$. If $\mathbb{T} = \mathbb{T}\mathbb{L}\mathbb{G}$,” should read as follows:

“if $\mathbb{T} = \mathbb{T}\mathbb{C}\mathbb{G}$, and $(\Pi \curvearrowright M)$, $(\Pi^* \curvearrowright M^*)$ are of **hyperbolic orbicurve type**. If $\mathbb{T} = \mathbb{T}\mathbb{L}\mathbb{G}$, and $(\Pi \curvearrowright M)$, $(\Pi^* \curvearrowright M^*)$ are of **hyperbolic orbicurve type**,”

These changes have *no effect* either on the subsequent discussions and results of the paper under consideration or on subsequent papers.

(6.) In the statement of Theorem 1.9, (b), the phrase “is as in (i)” should read “is as in (a)”.

(7.) In the second sentence of the statement of Proposition 5.7, (i), the phrase “**compact open subsets**” should read “**nonempty compact open subsets**”. Similarly, in the second sentence of the statement of Proposition 5.7, (i), (c), the phrase “*an open subset*” should read “*a nonempty open subset*”.
