

# Japanese Journal of Mathematics

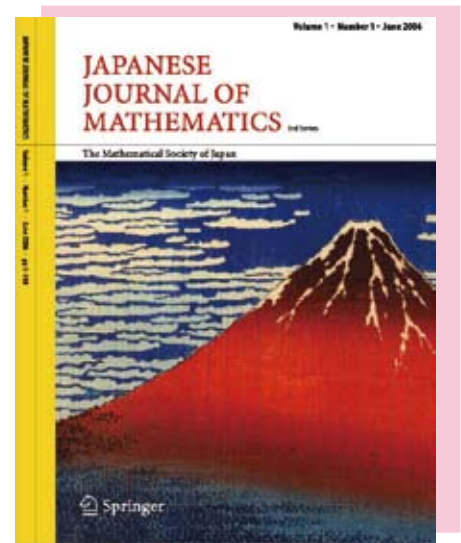

Founded in 1924, Japanese Journal of Mathematics (JJM) is the oldest continuously published mathematical journal in Japan. The Mathematical Society of Japan is proud to announce the debut in 2006 of its third series as authoritative research survey articles maintained by peer-review process.

JJM is the official journal of the Mathematical Society of Japan. It is published in cooperation with Springer.

## Papers published in JJM (since 2006) include...

V.I. Arnold	On the matricial version of Fermat-Euler congruences
S. Iyanaga	Travaux de Claude Chevalley sur la théorie du corps de classes: Introduction
S. Gindkin	Harmonic analysis on symmetric Stein manifolds from the point of view of complex analysis
L. Illusie	Miscellany on traces in $\ell$ -adic cohomology: a survey
V.G. Kac et al.	Finite vs affine W-algebras
M. Yor et al.	Some penalisations of the Wiener measure
K. Ito et al.	On the occasion of the ceremonial 2006 Gauss Prize
P. Malliavin et al.	A non-parametric calibration of the HJM geometry
H. McKean	Recollections of K. Itô and Kyoto 1957/58
K.-H. Neeb	Towards a Lie theory of locally convex groups
Ya.G. Sinai	Congratulations to Professor K. Itô
S. Smale et al.	On the mathematics of emergence
P.-L. Lions et al.	Mean field games
C. Voisin	Some aspects of the Hodge conjecture
